WORK EXPERIENCE

Fresher

MERN & Full-Stack Developer with more than one year of experience in building modern web applications using JavaScript, React.js, Next.js, Node.js, and other technologies.

SELECTED PROJECTS

1) WebfolioX: | [Live Preview](#) | [GITHUB](#)

Built a modern portfolio using **Next.js** and **Framer Motion**, featuring smooth **animations** and a **responsive design** to showcase projects and skills.

2) DevBlog: | [Live Preview](#) | [GITHUB](#)

A full-stack blogging platform built with **Next.js**, **TypeScript**, **Tailwind CSS**, and **ShadCN UI**, featuring seamless dark/light mode switching, image uploads via **Cloudinary**, user authentication with JWT, infinite pagination, and a powerful ReactQuill-based editor. Integrated email verification and password reset functionality to enhance security. Deployed as a **PWA** on **Vercel**, ensuring high performance and accessibility.

3) PrimeAttire eCommerce: | [Live Preview](#) | [GITHUB](#)

Built an eCommerce platform using **Next.js** and **ShadCN UI**, delivering a modern, responsive shopping experience. Integrated features such as dynamic product listings, and a seamless checkout process. The project focuses on **performance** optimization, **scalability**, and a **smooth user interface** tailored for a responsive, mobile-first experience.

4) E-Store: | [Live Preview](#) | [GITHUB](#)

A modern e-commerce platform built with **React.js** and styled using **Tailwind CSS**. The application leverages **Stripe CMS** for efficient product management and seamless payment integration. It provides an intuitive user interface with features such as product listings, a shopping cart, and secure payment processing. The platform is optimized for performance and responsiveness, ensuring a smooth shopping experience across all devices.
